Slattery Graduate Program 2025

Sharyn Cairns

slattery

Are you a recent or upcoming graduate with a property or construction related degree?

Will you bring a strong desire to grow, evolve and challenge yourself on a day-to-day basis as you begin your new journey?

Start your career in a forward-thinking organisation built on innovation and excellence!

Our Graduate Program

Our 12-month graduate program focuses on building your key foundational quantity surveying skills and abilities and developing your knowledge of the built environment and construction industry.

With access and learning from industry leading experts, we offer a platform for you to develop a deep understanding of quantity surveying and advance your career.

Our 2025 opportunities will be in our **Naarm (Melbourne)** and **Warrang (Sydney)** offices.

Your journey will include:

- Rotations across sectors and service lines
- Working on large, complex and exciting projects
- Structured learning opportunities including technical and consulting skills training and site visits
- An allocated mentor to help your career through our mentorship program
- Support and mentoring for industry membership accreditations (AIQS or RICS)
- Supported networking opportunities within the industry

About you

You are a recent or upcoming graduate from a property or construction related degree looking to kickstart your career.

We want people who are driven by excellence with a motivation and passion for delivering work that positively impacts society. You'll bring a curious and inquisitive mind to a highly collaborative environment where you'll be excited by the opportunity to develop relationships and build client engagement skills.

You'll bring high levels of accuracy together with numerical and data analysis skills and we'll help you build on those skills through creating a solution focused mindset.

“ I’m grateful to have been a part of both the Slattery Student and Graduate Programs and kick off my professional career whilst finishing my Architecture & Construction degree. Whilst I never planned to be a Quantity Surveyor, Slattery’s diverse portfolio of projects, mentorship and care about developing young professionals drew me in. Three years later, I am continuing to learn as a QS!”

Cassandra Chew, Quantity Surveyor
(Participant in the 2022 Student Program & 2024 Graduate Program)

About us

Slattery is a property and construction advisory firm specialising in early phase advisory, quantity surveying, cost management, integrated project controls and carbon planning.

Founded in 1976 and fully Australian owned, Slattery's reputation is built on a commitment to excellence and innovation, which has seen the delivery of over 16,000 unique public and private sector projects.

We are committed to knowledge leadership, reconciliation, sustainability and achieving great outcomes for the community through the built environment.

Two of our recent projects

New Student Precinct,
University of Melbourne, VIC

Liverpool Civic Place,
Liverpool City Council, NSW
