

slattery

A vibrant university courtyard scene. In the foreground, a paved walkway shows several students walking. The middle ground is a lush green lawn where many students are gathered, some sitting on large, colorful beanbag chairs (yellow, orange, blue). In the background, modern university buildings with large glass windows and balconies are visible under a clear blue sky. A tall, modern street lamp stands on the right side of the lawn.

Slattery Student Program 2025

slattery

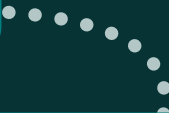

Are you studying for a property or construction related degree and interested in exploring a career in quantity surveying?

Are you interested in understanding the impact Quantity Surveyors have within the built environment?

Are you looking to build your network and gain insights into professional services?

Slattery's renowned Student Program may be the place for you! Applications for our 2025 program are now open.

slattery

Our Student Program

Our four-week program offers you the opportunity to delve into quantity surveying as a profession and experience a taste of the construction industry.

You will receive training on quantity surveying concepts and methods and learn to apply your newly acquired knowledge on client projects. You'll experience site visits, be exposed to client and business development activities, and participate in Slattery's culture.

You'll work in a small team to complete a project assignment which will culminate in an organisational wide presentation at the end of your program. You'll receive mentoring along the way from your Student Program Coordinator and your assigned Buddy.

Our 2025 opportunities will be in our **Naarm (Melbourne)**, **Meeanjin (Brisbane)** and **Warrang (Sydney)** state offices.

Program start and end dates may vary by State.

Following successful completion of our Student Program, you may be offered an ongoing cadetship and pathway to our Graduate Program whilst you complete the remainder of your studies.

About you

You will have completed at least one year of your undergraduate degree or will be studying for a postgraduate degree.

You'll be looking to experience an organisation which is forward-thinking and innovative, and prides itself on inclusion, flexibility and sustainability.

We want people who are highly motivated and proactive in their learning to fully immerse themselves in the four-week program. With good communication skills, you will not be afraid to ask questions. You'll get enjoyment using your numerical and data analysis skills and have a keen eye for detail and accuracy.

“
Joining the Slattery Student Program was one of the best decisions I made to kick start my career. I've met some of the most admirable people whom I've created life-long memories with whilst getting accurate exposure to what Quantity Surveying is through Slattery's wide range of projects.”

Cindy Vuong,
Quantity Surveyor Cadet
(Participant in the 2024 Student Program)

About us

Slattery is a property and construction advisory firm specialising in early phase advisory, quantity surveying, cost management, integrated project controls and carbon planning.

Founded in 1976 and fully Australian owned, Slattery's reputation is built on a commitment to excellence and innovation, which has seen the delivery of over 16,000 unique public and private sector projects.

We are committed to knowledge leadership, reconciliation, sustainability and achieving great outcomes for the community through the built environment.

Two of our recent projects

New Student Precinct,
University of Melbourne, VIC

Liverpool Civic Place,
Liverpool City Council, NSW
